OF THE PRIZE GAME

"Official Gazette of the Republic of Serbia", No. 152 dated 18 December 2020,
103 dated 21 November 2025.

Article 1

This regulation specifies the manner of determining the fulfillment of conditions for obtaining approval for the organization of a prize game in goods and services, as well as the manner of reporting on the results of the prize game

Article 2

The organizer may organize exclusively in their own name and for their own account no more than four prize games in a calendar year, with the consent of the Games of Chance Administration (hereinafter: the "Administration") obtained beforehand for each prize game individually, and they cannot organize two prize games at the same time.

The prize game may last for a maximum of 45 days, including the day of the prize draw.

Article 3

The consent for organising the prize game is given by the decision of the Administration, which also determines the amount of the fee for organising in the amount of 25% of the total value of the prize fund.

The prize fund represents the sum of individual market values of goods and services that make up the prize fund and is proven by credible documents (proforma invoice, invoice, price list, preliminary contract or purchase and sale contract and other evidence proving the value, i.e. the price of goods and services).

Article 4

The organizer is obliged to submit a request for consent to organize a prize game for goods and services no later than 30 days before the beginning of the prize game.

The request referred to in paragraph 1 of this Article may be submitted in written or electronic form, with documentation that, according to the Law on Games of Chance ("Official Gazette of the Republic of Serbia", No. 18/20 and 94/24 - hereinafter referred to as the Law), shall be submitted with the request.

In the request for obtaining consent for organising a prize game in goods and services, in addition to data on the name and registered address of the applicant, the organiser is obliged to state the amount of the prize fund with the specification of prizes, as well as the duration of the prize game.

Article 5

Along with the request for obtaining the consent for organising the prize game, the following documentation shall be submitted:

- 1) the decision of the designated body of the organiser on organising the prize game;
- 2) the decision on entry into the appropriate register;
- 3) the rules of the prize game;

4) evidence of the value of the prize fund.

The Administration shall ex officio obtain data from official records and the applicant is not obliged to submit the document referred to in paragraph 1, item 2) of this Article, unless the applicant expressly states that it will obtain the data itself.

The documents referred to in paragraph 1, items 1) and 3) of this Article shall be submitted in original or certified copy, while other documents shall be submitted in copy.

Article 6

The organizer is obliged to make the rules of the prize game in goods and services in accordance with the regulation that regulates in more detail the conditions, i.e. the content of the rules of games of chance.

The rules of the prize game cannot be changed during the duration of the prize game.

The organizer who has received consent to organize a prize game in goods and services is obliged to publish the rules of the prize game in at least one daily newspaper distributed throughout the territory of the Republic of Serbia at least eight days before the start of the prize game and submit proof of publication to the Administration within three days from the date of publication.

By way of exception to Articles 2 - 5 of this regulation, a state body or organization may, in order to improve the implementation of a specific regulation, organize a prize game exclusively for the purpose for which the Government establishes the criteria and gives its consent.

The organizer referred to in paragraph 4 of this Article shall pay a fee for organizing a prize game in goods and services in accordance with Article 107 of the Law.

Article 7

After the end of the prize game, the organiser submits to the Administration a report on determining the results of the game, which, in addition to information on the president and members of the commission, contains in particular:

- 1) data on the awarded prizes and their value;
- 2) data on the winners in accordance with the law governing the protection of personal data;
- 3) data on the place, time, manner and procedure of drawing, i.e. the determining of the winnings, as well as the supervision over the procedure.

The report on determining the results of the game shall be submitted in writing or electronically.

Article 8

On the date of entry into force of this Regulation, the Regulation on the manner of determining the fulfillment of conditions for obtaining approval for the organization of a prize game in goods and services and the manner of reporting on the results of a prize game in goods and services ("Official Gazette of the Republic of Serbia", No. 129/04) shall cease to be valid.

Article 9

This regulation shall enter into force on the eighth day from the date of its publication in the "Official Gazette of the Republic of Serbia".
